Prayer is fundamental to the Christian life because we are created by God for an intimate and everlasting relationship with Him. But a relationship can't be built or maintained without ongoing conversation with the other person. Despite how basic prayer is to a life of faith, it is not always easy. In Lectio: Prayer we will explore the difficulties we experience in prayer and discover how praying with scripture is the way to hear God speaking to us. Once we can hear God speaking to us, we will be able to enter in to a conversation with Him and be better able to discover His will in our lives.

Since this will take place during Lent, the last session will be all about God's mercy.
